ICS

EXCLUSIVE REALISTIC DESIGN

1. QD RECEIVER & SPLIT GEARBOX

快拆槍身及分離式齒輪箱

The ICS quick disassembling receivers and the splitting gearbox simulate real firearms, which enable an easier access to upgrade, battlefield maintain, and trouble shooting.

3. ERGONOMIC DESIGN

人體工學設計

Human engineering designed parts, such as NM4 pistol grip and MTR stock, are easy to use, more comfortable during long patrol mission, and provide more grip control for intensive combat situation.

2. WIRE-IN BUFFER TUBE

後出線電池托桿

Newly designed M4 buffer tube hides the power cord to offer more space for batteries.

4. ADVANCED UPGRADE PARTS

高階升級零件

The upgrade parts provide the outstanding performance for advanced players, including MIM high torque gears, reinforced nylon fiber piston, oversized aluminum piston head, and full capacity cylinder.

ICS PRECISION WORKMANSHIP

ICS invests in high precision CNC machines in order to produce high quality metal components such as receivers, RAS/RIS handguard, tactical rails and gearbox. All CNC machining components provide extremely realistic appearances as the real firearms. Even military standard 7075 aluminum can be processed for OEM customers.
