

UNIT 13

OUTDOOR ADVENTURES

Adjusting your sight

Place / Hold the replica as straight as possible and aim for the center of the target.

If the shot is high of the center
then turn the “elevation” **UP**
(Counterclockwise)

If the shot is low of the center
then turn the “elevation” **DOWN**
(Clockwise)

If the shot is left of the center
then turn the “windage” **LEFT**
(Counterclockwise)

if the shot is right of the center
then turn the “windage” **RIGHT**
(Clockwise)
